YOUR MANIFESTO:

I'm a fourth year Natural Sciences student, I have been involved in the Union for a long time now. I have been president of a society, member of several different one, and **Clubs and Societies Officer** for the year **08/09** and **09/10**. I was on **NUS delegation 08/09**.

With all this **experience**, and with the fact that I sit on a large number of committees and boards at UCLU (and have also sat on college ones) I believe I have enough **information** of what **you**, the student body, want; therefore I am able to **vote accordingly** after having **listened to debate**.
