

CANDIDATE MANIFESTO

YOUR PHOTO:

YOUR NAME:

Irhum Nabeela

YOUR DEPARTMENT:

Institute of Child Health

THE POSITION YOU ARE APPLYING FOR:

Student Trustee

YOUR 100 WORD SUMMARY:

Having completed my undergraduate at UCL, I have returned for an MSc in Global Health and Development. I am an open minded, balanced team player; with experience in directing charitable groups. I believe uniting all UCL students under the Union, in their best interests and ensuring Union policy is delivered is crucial for this role. University is a place that shapes and transforms freshers into graduates, with much taking place in between. Therefore a multifaceted approach is needed, including welfare, social, equal opportunities, increasing student participation and more to transform our Union into the BEST Student Union! We are what we make it.

YOUR MANIFESTO:

From your first days of sitting on the steps of the Portico, to when your class gather for the final memorable Kodak moments, dispersed on the Portico, caps in the air, the UCL Union comes along for the ride. Our Union is a crucial aspect of university life and therefore rightly students need to have a say.

Having been at UCL for four years to date, graduated and come back for a 5th, I have a grounded understanding of the changing needs of students as we progress through our degrees. Student requirements develop from social, to academic and then with a professional outlook. If elected I will assist in decisions where funding will support students across the ranging needs, as addressed by them.

As trustee I will work in the best interest of the Union and the students, working with the Board of Trustees to oversee the management of the Union and report regularly throughout the year, on issues discussed during respective meetings.

As a member of the Trust Board, I would facilitate the Union in carrying out its aims and mission statement 'UCL Union: Supporting, serving and empowering UCL students' effectively through necessary financial and structural consistency.
