WRITE THE WORDS CLEARLY:

Hi, I'm a second year Medical Student, with a lot to give to the Governance Committee, I'm dedicated to making the union a more supportive and transparent place for students to enjoy, whilst making sure that our constitution is upheld.

YOUR MANIFESTO:

If I'm elected to Governance Committee, I will uphold the aims and constitution of the Union to help provide a fair and regulated Union for all students to be part of.

I've been involved in Union politics since I joined UCL in 2008 and in this short time noticed how important fair and objective governance is to the students who are affected by the very serious decisions that are made by the Union and its members.

I have an eye for detail, am well organised and have a keen interest and understanding of Union and UK politics. These factors, combined with my previous experience with Clubs and Societies at UCL and my desire to keep the Union a safe and supportive arena, I think that I would make an ideal candidate!
