YOUR 100 WORD SUMMARY:

Hi! I am from Spain and my experience as a student counselor in Barcelona has equipped me to communicate effectively.

During the first year, you may face problems ranging from academic to personal. I will try my best to give you support for all your problems. I am good to people but more importantly, I am good with people! I hope you will give me the opportunity to represent you in the Union.

YOUR MANIFESTO:

Hi guys!

This is Antonio here. I am standing for the position of Engineering faculty representative. This is my first year in Engineering with Business Finance. I come from Spain and my experience as a student counselor back home in Barcelona has equipped me to communicate effectively.

- I will try my best to give you support for all of those things that worry you. I will be especially useful in the relation between our faculty and the UCL Union, to make sure that your voice is heard. I want our department to run as smoothly as possible and you to be happy with it, and I will do my best towards achieving this goal.
- I am aware that this year is going to bring lots of challenges for all of us. I just want to make things easier, dealing with the faculty/union relationship and your personal problems. I am very approachable so I will be happy to listen to all your worries and provide my best advice every time you need it.
- I also promise to keep you guys updated about what's going on in the union, especially with the facts which relate to us and our department.
