

CANDIDATE MANIFESTO

YOUR NAME:

Jing Nan XIE

YOUR DEPARTMENT:

Mathematics

THE POSITION YOU ARE APPLYING FOR:

Student Rep. from Maths&Physical Sciences

YOUR PHOTO:**YOUR 100 WORD SUMMARY:**

I am a first-year international undergraduate in the UCL. Being confident, enthusiastic and active are my characteristics. As a new student in the university, I do not want to keep my eyes on studying only, but trying new things, making friends and making a contribution to them. At the same time, I am also a girl who is very reliable and cautious. Even though I am outgoing and talkative, I will deal with my work very carefully and keep a secret for you. Therefore, I will be your best listener and expresser

YOUR MANIFESTO:

- One of the most important responsibilities for the student representatives is to help students expressing their voice to the union, therefore in the next year I will try my best to listen to your ideas. But what I want to do is not waiting for someone to tell me what he or she is suffering, I will take the responsibility to talking with you actively and regularly in all fields which you are worried about.
- The next thing I want to do is to help the international students to get into the life in the university instead of living in a small group with their own countries' friends.
- Student representatives should also be responsible for inform the union's ideas to the students, therefore in the next year I will inform everyone in my faculty the news from the university and the union in time. Furthermore, I will also remind you the one which is related to you. For example, by knowing you are unsatisfied with your accommodation, if there is some news for accommodation made, I will knock your door and let you know it!
