

# **MARCELLE MARKS #1 for NUS**

What I will fight for ...

- ✓ **Against Racism – keep our campuses free from racist and fascist groups. Support the Anti-Racism Campaign to ensure that our universities stay safe for everyone**
- ✓ *Equality and Representation – a voice for all minority groups, regardless of gender, religion or sexual orientation on a local and national level*
- ✓ **Opportunity and Finance – students shouldn't miss out on opportunities due to poor loans. Loans should reflect the needs of a full and involved university life, and opportunities must be affordable so that more students can take advantage of them**
- ✓ *Clarity – NUS should make itself more comprehensive for all members of the union – all students should be able to understand and determine how they are represented nationally*
