

## GIOVANNA AMOROSI – Clubs & Societies Officer

- I have been **Clubs & Societies Officer** this year (2008/9) and I am running for re-election.
  - I am a third year Natural Scientist
  - Founder and President 2007/8 of the Italian Society, and on the committee in 2008/9
  - Mentor and run the Peer assisted learning scheme for my department both in 2007/8 and 2008/9
  - Part of the cast of the dance show 2006/7 and 2007/8
  - Part of the waterpolo club
- Been a member of societies from each one of the three boards – Societies, Arts and Sports
  - UK vice-president of AGIM (association of Young Italians in the World)

Having done this Job already for one year and have the experience required to make further changes. I have a vast knowledge of the issues that affect most of the societies, have a excellent understanding of the procedures, and how the Union works. Therefore I will be able to use my **experience** to improve your Union and **support you** in the running of all your societies.

### What I intend to do

If I was to be **re-elected** I will carry on working on all the things I have done this year and use my experience to make **further improvements**.

- I intend to make societies liaise more with each other to **encourage cooperation** between societies, making them share events and what they provide, breaking down, where appropriate, the barrier there is between Sports, Arts and Societies boards members
- I will work on improving the **intersociety football tournament**, making it into a bigger event.
- I will work in ensuring that the new balls for Arts, Sports, Societies and Union will be continued and **developed further**
- I will work to consolidate the system of applying for new societies during the whole year, in order to **increase opportunities** for you and to give re-fresher's fayre a bigger importance
- I want to **represent** the minor societies so that everyone has equal opportunities and allowing them to grow and be recognized more within the union and the student body
- I intend to work on making the **Arts festival** a bigger event and making it an opportunity for Arts societies to show off what they did during the year with slide shows, screenings of videos, poster boards, workshops. Work on having food, bars, etc. Also making it an opportunity for non-arts people to learn about and enjoy what arts societies have to offer - not just an event for the arts societies people – more inclusive event and integrate this into a bigger weekly event for the **celebration of the activities of all the Clubs and Societies**.
- I will continue to work to organize **other inter-society competition** which would include all the societies, such as what I am already working on (Gordon Street Marathon)
- I want to encourage the development of the communication of societies activities and achievements through Union media to the whole student body to increase involvement.
