

# My Manifesto

Hi I am **Claudia**, a friendly first year medical student who would like to be the **RUMS Pre-Clinical Vice-President**.

So, what can I tell you that will convince you to vote for me? To be honest it is difficult to make the skills I need sound exciting, but briefly I think I am quite organised, attentive, honest, open and always willing to help out. I certainly feel I have the motivation and dedication for the job as after only a few months the lovely people who make up RUMS are starting to feel like family and Huntley Street my home (and I was actually born there 19 years ago!)

When in office I promise to serve the students of RUMS to the best of my ability. I will represent the views of all pre-clinical medical students and I am prepared to fight for anything which YOU feel is important. I would like to encourage greater integration between years, which I think would not only be fun but also useful as the older students are full of good advice. I will also be backing the campaign to save Huntley Street. If this proves impossible I will do my best to ensure a replacement is provided, as we all benefit from having a space which we feel we can call our own.

Since the beginning of the year I have tried to get to know as many people as possible through rowing with RUMSBC and RAG (yes I am one of those annoying people who will harass you with a collection bucket!) but if I haven't had the pleasure of meeting you yet then please come and say hello and I will try to answer any questions you may have about this manifesto and my campaign.

In summary, I would love the opportunity to be more involved with the medical school through the role of Pre-Clinical Vice-President. I hope that by organising events, representing the views of pre-clinical medical students and generally helping with the running of RUMS I can give just a little something back. If this sounds good to you then please vote for me!

Thank you xxx
