

Marisha Naz Shakil Ahmad

Position Applying for: UCLU Finance and Services Committee Member

About myself: Studying Economics (First Year) at UCL, and absolutely enjoying it! I've had vast experiences in handling finances. Last Summer I managed the financial accounts for a 5-day-conference by s2click, an oil and gas consultation company in Malaysia. Back in school I was the organizing chairperson for 2 large scale fundraisers, handling accounts in the range of 10,000-30,000. With my experience I hope I can contribute to this committee and at the same time open my horizons and gain further experience in handling the finances of a large scale organization.

As the Finance & Services Committee member I will try my best to achieve the following goals:

- Ensure the Union's short term and long term investments are in the best interest of the students
- Ensure that the Union's services are running efficiently, providing quality goods and are cost sensitive
- Object any increase in prices of Union services
- Creatively think of ways to go about the budget cut without increasing prices but pushing for efficiency
- Help connect smaller/newer clubs to sponsors to gain external funding for activities
- Ensuring a sustainable future for the Union

I look forward to brain storming with the finance and services committee on how the Union can spend its finances better and with a more cost efficient methods. I am very enthusiastic and love thinking out of the box to find unconventional ways to do things. I believe my presence in the committee will be an asset.
