

Andrew Speakman

Governance Committee Member

- If elected, I would like to ensure that the Constitution of the Union, and its associated standing orders are upheld.
- Certify that all motions that are submitted to union council are legitimate and are compatible with the remit of the union.
- That bureaucracy is a necessity to run a machine as large as a student union efficiently, but should be kept to a minimum to not hinder the functions of the union, and clubs and societies.
- Support the organisation of the unions AGM, making sure that students old and new are aware of its importance to the union's democratic structure.
- With increasing issues to discuss, I believe that the student body should not be restricted to the number of General Meetings per year.
- Maintain that all affiliated clubs and societies constitutions are compliant with what is required by the union.
- Finally, ensure that all issues that are brought before the governance committee are dealt with in a transparent and consistent manner.
