

Richard Muswell – Governance Committee

If I'm re-elected to Governance Committee, I will uphold the aims and constitution of the Union to help provide a fair and regulated Union for all students to be part of.

I've been involved in Union politics since I joined UCL in 2008 and in this time noticed how important fair and objective governance is to the students who are affected by the very serious decisions that are made by the Union and its members. I've really enjoyed my time on Governance Committee this year and hope you that I will be re-elected.

I have an eye for detail, am well organised and have a keen interest and understanding of Union and UK politics. With these factors, combined with my previous experience with Governance Committee, Clubs and Societies at UCL and my desire to keep the Union a safe and supportive arena, I think that I make an ideal candidate!
