

## **NICOLE BADSTUBER for ARTS OFFICER**

### **Initiating a Charity Arts Ball**

The organisation of an event to showcase the various arts societies many talented members. As well as providing an opportunity for each society to perform a teaser of their work, the funds raised would go to a charitable cause.

### **Improving the Arts Festival**

To expand the current form of the Arts Festival at UCL. This would include the possibility of involving other Universities. This would increase the festival's profile as well as offer the possibility for an exchange of creative ideas and expanding current member's network in the arts.

### **Promoting Art Societies' productions across campus**

This would include the formatting of a booklet detailing all productions in the Bloomsbury Theatre and Garage Workshop Theatre as well as any productions held in other locations such as the Windeyer Building and in the Quad. This booklet would also be published online and be accessible to all interested as well as being distributed across UCL Campus.

### **Continue efforts to offer a central costume and props source**

I aim to carry on all efforts by the current Arts Officer to improve the state of the costume cupboard, including maintaining organisation and expanding collection by sourcing costumes and props. Thereby, I intend to create a central source for all production teams to use.
