

CANDIDATE MANIFESTO

YOUR PHOTO:

YOUR NAME:

Mohammed Kashim Bin Subhan

YOUR DEPARTMENT:

Physics & Astronomy

THE POSITION YOU ARE APPLYING FOR:

BME Student's Officer

YOUR 100 WORD SUMMARY:

Hi, I am a 1st year student studying Physics at UCL (of course). During my time at uni I hope not only to gain further academic credentials but also to do my part for the community (in this case my fellow students). I firmly believe that it is the right of all students to have a say in how their time at university is spent and to have a voice in the daily running of the university. As a student from an ethnic minority myself I understand the difficulties people face in integrating into new cultures and removing stereotypes. I intend to make it easier for students of all backgrounds to study at UCL without fear or intimidation.

YOUR MANIFESTO:

- I will be available for all members as a person who they can turn to for help and for representation
- I will run anti-racism and anti-BNP campaigns and try to highlight the diversity of the universities student body
- I will do my utmost to make the BME students network and forum successful
- I will represent union members views to the council and work hard to eliminate problems which union members face
- I will attend all meetings to ensure all union members' views are heard and to share their views on how the union should be run.
- I will raise issues affecting students of all ethnic backgrounds during meetings
- Ultimately I will be a true student representative, working for the betterment of all UCL students.
