

DANTE MICHEAUX

SUMMARY:

I would like to stand for President of the Postgraduate Association because I can offer a strong voice to represent postgraduate students in the Union. As current president of the PGA and having been an Academic Advisor at the university level, an Undergraduate Tutor, a Resident Advisor and a Program Coordinator, my background makes me uniquely qualified to liaise with The Graduate School and to find practical solutions to the common problems affecting all students.

MANIFESTO:

As President of the Postgraduate Association, I intend to:

—provide better representation of both taught Masters and research students throughout UCL, specifically greater visibility at orientation programs and Freshers' Fayre;

—work with postgraduate students across courses to develop social programs of particular interest to mature students;

—work with Hall Representatives to ensure that the particular needs of postgraduate students in residences are met;

—and meet with Faculty Representatives to design interdisciplinary programs tailored to the intellectual pursuits of all students.
