

**Vote
Negin Damali Amiri
for
RUMS Senior President:**

I believe:

- Protection of RUMS Sports teams is crucial to the Medical Students experience
- Our representation in the Union is important in ensuring our needs are met – social space, sports and societies and events
- That constant communication and a good working relationship with the medical school staff is important for honest and constructive feedback
- That being open with students on all issues discussed in boardrooms is required to maintain trust in their elected representatives

I will:

- Take your academic issues straight to relevant committees to ensure you get the best **educational** experience possible.
- Work with the Medical School to ensure every student needing it gets the best **welfare** support available
- Voice the Medical Students views in Union committees; to guarantee we are always taken into consideration
- Remain accessible and accountable to you to ensure I remain **representative** of your views

Issues I will campaign on include:

- Better library access during clinical exam times
- A review of the in-course clinical assessments
- Improved communication between the school and students when changes are made
- A more responsive course, so no complaints are left unheard
- Maintenance of Medical Students' social spaces
- Anti-bullying and harassment
- Better communication between iBSc students and the iBSc representative
- Improved preparation for progression from Phase 1 to 2 and from phase 3 to FY1
